As the President of the SPA-Hellas, I am really happy first because the Editor of the EJP, **Renate Zimmer** has been elected as the Professor of the Year in Germany! Congratulations Renate! Second, the Editorial of our second volume hosts the opening speech of the President of the European Forum of Psychomotricity to the 4th Congress of Psychomotricity in Amsterdam.

On the other hand two volumes are scheduled for 2010: one special issue on Developmental Coordination Disorder as well as our annual volume. Call for papers will soon circulate.

I would like to thank **Lone Helleberg Frimodt** for trusting us her speech and each one of you for your continuous support.
